Presigmoid retrolabyrinthine approach for petroclival meningiomas, 105
Presigmoid translabyrinthine approach for petroclival meningiomas, 105
Pressure monitoring, using a microcatheter, in intravascular treatment of spinal arteriovenous malformations, 148
Prison camp hospitals, Japanese, in Burma and Siam, practice of surgery in, 448-ed

Proptosis
in intraorbital extraocular tuberculosis, 320
in primary meningioma intimately related to skull, 476
Protease inhibitor, effects of cerebral vasospasm
caused by cisternal injection of polystyrene latex beads by, 374
Protease inhibitor, effects on cerebral vasospasm
after subarachnoid hemorrhage, 382
Pseucocyst, cerebrospinal fluid, cerebrospinal fluid leakage from the nipple associated with, 224
Pseudoaneurysm, cerebral, secondary to intracranial nail injury, 312
Pseudotumor, inflammatory, plasma cell granuloma, intracranial, 481
Pulmonary embolism, in neurosurgically treated patients, urokinase thrombolytic therapy of, 469

Radiologic follow-up, late, after surgical correction of angular and axial deformity consequent to burst fractures of thoracolumbar or lumbar spine, 23
Radiosurgery-induced nausea and vomiting, prevention of, by ondansetron, 249
Radiotherapy, for germinoma, 200
Rat, embolization model, acute brain swelling in, 352
Rathke's cleft cyst, Cushing's disease accompanied by, localization of microadenoma in, 112
Rebleeding, after aneurysmal rupture, 130
Rendu-Osler-Weber disease. See Hereditary hemorrhagic telangiectasia
Rhabdomyosarcoma, orbital, prior, unilateral vestibular schwannoma in child with, 121

Scalp
hibernoma of, 343
swelling, intracranial epidural tuberculoma presenting as, 322
Schwannoma
surgical management of, in the elderly, 2
vestibular, unilateral, in child with prior orbital rhabdomyosarcoma, 121
Screw plate, titanium-locking, anterior cervical fixatrion with, 408
Seizures. See Epilepsy
Short-segment, stabilization, for burst fractures of the thoracolumbar or lumbar spine, delayed worsening after, 23
Shunt, shunting
lumboureteral, long-term, removal secondary to iatrogenic meningitis, 231
malfunction, percutaneous flexible neuroendoscopic ventriculostomy as alternative to shunt revision in, 218
revision, percutaneous flexible neuroendoscopic ventriculostomy as alternative to, 218
ventriculoperiteoneal, malfunction, cerebrospinal fluid leakage from nipple and, 224
ventriculopleural, cerebrospinal fluid galactorrhea after, 227
Skull
fracture, growing, in adult, 165
primary meningioma intimately related to, 476
x-ray, of giant calcified subdural empyema, 442
Skull base, tumors, in jugular foramen region, transcondylar approach to, 265
Somatosensory evoked potentials, reversibility of transient focal cerebral ischemia evaluated by, 138
Sonography. See Ultrasound
Spectroscopy, near-infrared, transcranial cerebral oximetry based on, 431
Sphenoid sinus, pituitary adenoma of, 330
Spinal cord
compression, in cervical epidural hematoma, 414
subdural abscess, in AIDS patient, successful treatment of, 424
Spinal infection, extradural, microbiologic spectrum or neurologic outcome, HIV status and, 417
Spine
aneurysmal bone cyst of, 428
angiography of, 276-ed
arteriovenous malformations
extradural, presenting with recurrent hemorrhage and intermittent paraplegia, 26
with hereditary hemorrhagic telangiectasia, 234
intravascular treatment of, using a microcatheter, serial xylocaine test and intravascular pressure monitoring in, 148
diseases, neurosurgeons' experience with, reporting of, 361-ed
injury
epidemiology of, 278-le
subacute cervical epidural hematomas associated with, 414
vertebrobasilar complications, magnetic resonance angiography of, 245
surgery, 1-ed, 361-ed
thoracocolumbar or lumbar spine, burst fracture of, delayed worsening of surgical correction of angular and axial deformity consequent to, 23
tumors
neurinoma, occupying the holocervical and upper thoracic regions, 157
paraganglioma of the cauda equina with associated syringomyelia, 489
Spondylosis, cervical, anterior cervical fixation with titanium locking screw-plate in, 408
Staining, of tumor margins in rat glioma model, 552-le
Stereotactic surgery
image-guided using the Cosman-Roberts-Wells system for third ventricular craniopharyngioma, 362
induced nausea and vomiting, prevention of, by ondansetron, 249
in patient with factor VII deficiency, 79
Stimulation tests, endocrine, pituitary apoplexy caused by, 19
Stroke, in massive intracerebral hematoma associated with Klippel-Trenaunay syndrome in child, 392, 392-ed
Subarachnoid hemorrhage
after aneurysmal rupture, 130
due to ruptured intracranial aneurysms, 57
early diagnosis of, 97-ed
immune system and, 374
in traumatic posterior cerebral artery aneurysm secondary to an intracranial nail injury, 312
Subdural abscess, in AIDS patient, successful treatment of, 424
Subdural empyema, giant calcified, 442
Subdural hematoma
acute, in infants, atrophy and maldevelopment of the ipsilateral cerebral hemisphere after, 498
associated with middle meningeal arteriovenous fistula, treatment by embolization and burr hole drainage, 316
mast cell–rich convexity hematoma presenting as, 8
Subtentorial diverticulum, of the third ventricle associated with mural cavernous angioma in a child, 211
Surgery. See also Neurosurgery; specific procedure
for aneurysmal bone cyst of spine, 428
for benign intracranial meningiomas and acoustic neuromas in the elderly, 2
for cavernous angioma, in children, 194
early, for aneurysmal rupture, rebleeding after, 130
for ethmoid sinus carcinoma, combined with chemotherapy, 98
for interhemispheric arachnoid cyst in elderly, 346
orbito-fronto-malar approach, total excision of a thalamic arteriovenous malformation using, 297
for peripheral anterior inferior cerebellar artery aneurysms, 46
for petroclival meningiomas, combined approach, 105
posterior cervical fusion with methylmethacrylate, wire, and bone, 259
practice of in Japanese prison camp hospitals in Burma and Siam, 448-ed
for ruptured nontraumatic fusiform aneurysm of the cavernous carotid

presenting with multiple episodes of epistaxis, 293
transcondylar approach to jugular foramen, 265
